

LIBERTY MEDICAL FOR DIABETES TESTING SUPPLIES

Recently I called Liberty Medical and talked to a nice guy named Codi.
He gave me his direct number:
800-633-2001 ext 76026

If he is not there friars could also call the general 800 number: 800-376-1599

Codi said the friar would need to give him this information:

- His name, address, phone number
- His Medicare number
- Christian Brothers self-funded Medical Plan coverage information (address and ID numbers)
- The Doctor's name and phone number
- The brand name and type of the glucose testing machine the friar uses.

Then Liberty Medical can send the friar a 90 day supply of strips at a time, and will bill 80% to Medicare and the other 20% to Christian Brothers.

Once they have an account friars can go online to reorder a new 90 day supply at:
<http://www.libertymedical.com/>
or they can call in to reorder.

They can call me with any questions.
